

Competitiveness and Stability in the Knowledge-Based Economy *13th International Conference, October 29 – 30, 2021* **Craiova, Romania**

Organized by

The University of Craiova, Faculty of Economics and Business Administration and Constantin Botea Foundation together with its partners: AFER Romania; Doctoral School in Economic Sciences, University of Craiova; Global Corporate Governance Institute; University of Studies "Carlo Bo", Urbino, Italy; Burgas Free University, Burgas, Bulgaria; Riga Technical University, Riga, Latvia; Canakkale Onsekiz Mart University, Canakkale, Turkey.

This year, in the times of returning to normal, the conference, organized ONLINE, will equally address practitioners from the business environment, economic and political decision factors, academics from the economic higher education, students and PhD students enrolled in economic fields. The aim of the Conference is to create opportunities for scientific debates based on the latest economic trends and developments at European and international levels. Acknowledging and appreciating the interest and contribution to the knowledge and development of economic advanced research and practice, the organizers invite you to participate in the 13th iCOnc Conference. The aims of the conference are:

- stimulating the dissemination of existing information and research results made by the teaching staff of our faculty, partner institutions and all the participants to this scientific conference;
- encouraging the higher education teaching staff, researchers, Master students, PhD students to contribute to the identification of short, medium and long term solutions;
- structuring, grounding, testing and applying new models and development strategies of the national economy within risk and uncertain conditions generated by the current economic conditions and environment;
- identifying some research fields and new possibilities of collaboration and cooperation within the most important areas of the economic life at a national and European level;
- shaping new projects of collaboration between researchers and teaching staff with the main goal of raising the interest of the business environment for the higher education oriented towards the realities of the economic lives.

The confirmed guests for the plenary are as follows:
